Information Systems graduate candidate with practical experience in software development, information systems, and digital transformation projects. As a National Internship Program participant at the Indonesia Witness and Victim Protection Agency (LPSK) through MagangHub Kemnaker, contributed to the development and enhancement of a web-based reporting application that supports internal operational processes and organizational efficiency. Skilled in Laravel, MySQL, Bootstrap, front-end development, system analysis, UI/UX implementation, testing, and technical documentation. Demonstrated ability to work collaboratively in multidisciplinary teams, solve complex problems, and deliver technology solutions that support business and organizational objectives.

Work/Study Experiences

Indonesia Witness and Victim Protection Agency (LPSK) - Jakarta

Nov 2025 – May 2026

Information Systems and Technology Governance

These activities involved participating in the National Internship Program organized by the Ministry of Manpower (Kemnaker) through MagangHub and contributing to the Information Technology Division of the Indonesia Witness and Victim Protection Agency (LPSK). During the internship, interns collaborated with the development team to support the digitalization of internal reporting processes through the development, testing, and documentation of a web-based reporting application used within the organization.

- Contributed to the development of a strategic Web-Based Reporting System to support the digitalization of internal reporting processes within LPSK.
- Developed and improved front-end modules, including reporting, monitoring, approval workflows, archives, and user management features using Laravel and Bootstrap.
- Implemented Role-Based Access Control (RBAC) and middleware authorization to ensure secure and efficient system access.
- Performed system analysis, Black Box Testing, and technical documentation to support application quality and reliability.
- Collaborated with cross-functional IT teams to deliver technology solutions that enhanced organizational efficiency and reporting management.

Organisational Experience

LDK (Lembaga Dakwah Kampus) Senada STTNF -Jakarta, Indonesia

May 2022 - Jan 2023

human resource development division staff

Fostering a sense of kinship in all Senada members, being the mediator and decision maker for internal problems, being a discussion partner for all divisions in Senada, improving organizational skills of members, getting to know each member more deeply, being a driving force in doing good.

- Conducting internal seminars Aimed at developing the talents of each member's ability especially in the field of public speaking such as master of ceremony and moderator, and the seminar went well and greatly educated the internal according to the main objective.
- Implementing a program to monitor the performance of members in line with what has been done. Aims to evaluate each division and bureau and increase the sense of caring for fellow members, provide training on organization and provide rewards for the best matching members.

LPPM (Lembaga Penelitian dan Pengabdian Masyarakat) STTNF - Jakarta, Indonesia

Jun 2024 – Jan 2025

Volunteer Pekan Pengabdian Masyarakat

I had the opportunity to become a volunteer for LPPM STTNF in the Community Service Week program, which aimed to educate the public through seminars on information technology. This event was conducted in multiple sessions, featuring STTNF lecturers as speakers who discussed various topics related to technological advancements and their applications in different fields.

As part of this event, I served as a webinar committee member for the LPPM STTNF-organized seminar, where I was responsible for coordinating the event, ensuring smooth technical operations, and assisting participants in accessing the online sessions. Through this experience, I gained new insights into the field of information technology and enhanced my skills in managing virtual events.

KT&G SangSang Univ. Indonesia -Jakarta, Indonesia

Mar 2024

Volunteer

SangSang Univ Indonesia is a community that focuses on developing young people's creativity and skills through various educational programs and social activities. As a part of this community, I participated in a volunteer program during Ramadan, where we painted a school building using cooling paint to create a more comfortable learning environment for the students. Additionally, I attended a class at Binus to learn bouquet arrangement, further enriching my experience in both creative and social fields.

- **Volunteer Program:** Participated in a Ramadan volunteer project where we painted a school building using cooling paint to create a more comfortable and cooler classroom environment for students.
- **Creative Workshop:** Attended a bouquet arrangement class at Binus, organized by SangSang Univ Indonesia, to enhance creativity and hands-on skills in floral design.

Dampak Sosial Indonesia & Teman Hebat Berkarya - Jakarta, Indonesia

Mar 2024

Volunteer

Dampak Sosial Indonesia is a community focused on empowering society through various social activities, education, and real actions in the fields of education, environment, and social welfare. Meanwhile, **Teman Hebat Berkarya** is a community that supports and empowers individuals with disabilities through creative programs and skill training to enhance independence and work opportunities. Both communities play a role in creating a positive impact on society through inclusive and sustainable initiatives.

- I participated in a creative activity with **Dampak Sosial Indonesia** and **Teman Hebat Berkarya** alongside children with disabilities. We made **Lap** from old clothes as an eco-friendly upcycling initiative, followed by a painting session on **totebags** to express their creativity. This activity not only helped develop their motor and artistic skills but also fostered a sense of togetherness and inclusivity. To conclude the event, we had **iftar (breaking the fast) together**, creating a warm moment that strengthened the bond between volunteers and participants.
